Vertiv™ Liebert® GXT5
TAA Compliant UPS
1000 - 3000VA 120V
Online Double-Conversion UPS
Offers the Highest Level of
Power Protection
Online Double-Conversion UPS Offers the Highest Level of Power Protection

The Vertiv™ Liebert® GXT5 TAA UPS is an online double conversion UPS solution which offers premium power outage protection and continuous power conditioning in a compact and flexible rack/tower form factor.

The Liebert® GXT5 TAA single-phase UPS operates with high power efficiency, making it ideally suited to protect critical infrastructure in both centralized and edge network applications.

Scalable runtime options with matching external battery cabinets offer additional flexibility when extended uninterrupted power is required. Plus, the Liebert GXT5 TAA provides battery health status and replacement date prediction for intelligent battery health management.

With market leading efficiency and unity power factor operation, the Liebert GXT5 TAA will meet your critical application needs. And you can rest assured that your business is protected with this Vertiv™ solution that includes a standard, three-year advanced exchange product warranty.

Liebert® GXT5 TAA Features

**Leading UPS Technology**
- High output power factor = up to 1.0
- Full-color graphic LCD with gravity sensing orientation
- Individually controllable output power sockets
- External battery cabinets with auto-detection
- Battery health status and replacement date prediction
- Remote management, update, and configuration capabilities
- Optimized thermal management and variable speed fan

Efficient and Green Product
- High efficiency in online mode
- Energy Star 2.0 certified
- Even higher efficiency (up to 98%) in Active ECO mode
- Programmable outlets for power cycling hung equipment and optimum battery usage
- Compliance with Restriction of Hazardous Substances (RoHS) directive and the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) regulation

Solutions Wide
- Compact rack/tower design
- Broad range of services and extended warranty
- Easy to install, configure and operate
- Vertiv™ RDU101 network communications card with advanced features
- Compatibility with environmental sensors
- Integrated dry-contacts with selectable definition
- Free Trellis™ Power Insight management software
- Serial port for out-of-band management with Avocent® serial consoles
- Automatic internal bypass and external maintenance bypass options

What's in the box
- UPS
- Tower stand
- 4-Post Rack Mounting Kit
- USB Cable
- Quick Start Guide
- Safety Manual
- Vertiv™ Power Insight Management software (free download from Vertiv.com)

What’s in the box
Vertiv™ Liebert® GXT5 TAA Features

**Battery cabinets with auto-detection**
Be confident the UPS is set up correctly to report available runtime when used with external battery cabinets.

**Efficiency (up to 95%) in online mode**
Energy Star 2.0 certification. Higher efficiency means an optimized energy management and lower heat dissipation, for energy savings and improved reliability.

**High power factor (0.9-1.0)**
More usable power enables more connected loads saving space and costs.

**Efficiency (up to 98%) in Active ECO mode**
Superior protection with maximum efficiency.

**Colored graphic LCD with gravity sensitive orientation**
User-friendly interface provides insight to UPS status for easy installation, configuration and operation.

**Compact rack/tower design**
Space-saving UPS provides rack space optimization and flexible installation.

**Product warranty**
Comprehensive coverage through a standard three-year advanced exchange warranty.
1000-1500VA – 120V Rack/Tower

External Battery Connector
Scalable runtime solution supported for extended outage protection

4 x Individually Controllable Receptacle
Manage load on battery and control unauthorized access to UPS receptacle

Communications
SNMP, Serial, Dry contact, Local USB
Local and remote configuration and UPS Management

2000VA – 120V Rack/Tower

External Battery Connector
Scalable runtime solution supported for extended outage protection

NEMA L5-20R
Support larger devices or rack PDU

4x Individually Controllable Receptacle, 2x Always on Receptacles
Manage load on battery and control unauthorized access to UPS receptacle

Communications
SNMP, Serial, Dry contact, Local USB
Local and remote configuration and UPS Management

NEMA L5-20P input with over current protection
Includes NEMA 5-20 Adapter Cable for non-locking receptacles

3000VA – 120V Rack/Tower

External Battery Connector
Scalable runtime solution supported for extended outage protection

NEMA L5-30R
Support larger devices or rack PDU

4x Individually Controllable Receptacle, 2x Always on Receptacles
Manage load on battery and control unauthorized access to UPS receptacle

Communications
SNMP, Serial, Dry contact, Local USB
Local and remote configuration and UPS Management

NEMA L5-30P input with over current protection
Simple installation and power on with connected input cord
How You Benefit from the Vertiv™ Liebert® GXT5 TAA UPS

**Designed for high availability**

- The higher power factor (0.9 - 1.0) ensures the connection of more loads and IT equipment
- With individually controlled output receptacles, you can manage power to individual devices without impacting other critical network equipment operation
- Minimum downtime of the device provided by hot-swappable, user-replaceable battery modules which can be changed during operation
- LIFE™ Services helps to enhance uptime, as well as operational efficiency with continuous remote monitoring, expert analysis, and proactive response
- Automatic self-test

**User-friendly installation and operation**

- Easy-to-read, gravity-sensing graphical color display
- Intuitive user interface for local configuration and management
- Support for the Vertiv suite of remote management tools (Trellis™ Power Insight, Vertiv™ RDU101 network interface card, and serial connectivity support)
- Auto-detection of external battery cabinets enables faster deployment and accurate runtime information
- Remote UPS firmware upgrade capability ensures the UPS has the latest features and enhancements

**Longer service life and runtime of the batteries**

- Extended runtimes provided by the addition of external battery cabinets
- Improved battery care by temperature-compensated battery charging
- Intelligent battery health management ensures a longer service life (optimized battery maintenance and replacement when needed)

**Optimized energy and capacity management**

- Active ECO operating mode with up to 98% efficiency
- Efficiency in online double conversion mode up to 95%
- Energy Star 2.0 certified
- Four individually programmable output receptacles can be use to extend runtime for the most critical loads and smart disconnection of the less critical ones

**Seamless connectivity**

- Four onboard, user-definable dry contact I/O for integration of support management systems
- Supports SNMP, web, and environmental sensors with the optional RDU101 communications card
- Serial connection for integration of Avocent® ACS product or direct serial management and control of the UPS
## Liebert® GXT5 TAA UPS - Power Assurance Services

### Power Assurance Package - Summary

- Includes all below "Power Start-up Services" and "Power Emergency Services" support
- One Preventative Maintenance visit after 3rd year (5-10kVA UPS only)

### Power Startup Services - Summary

- Installation includes mounting and start-up of new UPS or EBC (excludes hard-wired applications)
- Services performed by Vertiv factory trained technician
- Services performed 7 X 24, excluding national holidays within the 48 contiguous states and Hawaii
- Removal and disposal of existing UPS or EBC equipment, if selected

### Power Emergency Services - Summary

- On Site Service Support
- Full-service five (5) year contract term commencing upon the start-up date
- 100% parts coverage, including internal batteries, POD and web card
- 100% labor and travel coverage 7 days/week, 24 hours/day
- 24-Hour Customer Resolution Center via 1-800-LIEBERT
- Access to Customer Services Network portal

**LIFE Services includes above plus:**

- Continuous Monitoring, Expert Analysis, and Proactive Response

Note: LIFE™ Services requires an Vertiv™ RDU101 card, which is included on all 5000VA to 10000VA models. Please refer to the Scopes of Work for full and additional details.
Power Assurance Package: Comprehensive Service Support for Critical Systems

- **Five-year protection plan** with 100% parts coverage and 24x7 emergency service
- **On-site installation and startup** of UPS and internal batteries (excludes hard-wired applications); configuration of new UPS and accessories; and if purchased, safe removal and disposal of legacy UPS and batteries
- **On-site service support** available 24x7 (within 150 miles of regional service center) and includes 100% labor and travel coverage
- **100% parts coverage** for UPS and includes internal batteries, POD (power output distribution), and web card
- **24x7 access** to customer resolution center and online access to Customer Services Network

Key benefits

- Hassle-free management of multi-site rollouts
- Frees up time-strapped IT staff by managing and tracking UPS health, maintenance and service
- Reduces the worry of critical equipment downtime
- Ensures rapid recovery in the event of failure (within 24-48 hours)
- Frees you from the responsibility of handling and documenting the disposal of legacy UPS and batteries

Remote Diagnostic Services for Rapid Response

- Continuous monitoring for early detection of trends and operating anomalies
- Analysis and interpretation of alarm and status messages

Uptime assurance

- Automatic transmission of data for analysis
- Concurrent diagnosis and dispatch of engineer to site
- Shipment of parts for corrective maintenance

**Increased insight and ease of management**

- Notification of operating conditions that may impact system health
- Periodic trend and analysis reports
- Integration of remote and on-site services to ensure business continuity

Refer to page 11 for service offerings’ SKUs

### Warranty

| Protection Plan | Equipment Protection Plan | $500,000 |

| Protection Plan | Equipment Protection Plan | $500,000 |
**Vertiv™ VR Rack**
Supports a wide variety of equipment and gives you the flexibility you need with easy installation.

**Vertiv™ Geist™ rPDU**
Reliably distributes power to the rack, supporting dynamic data center operations and DCIM.

---

**Vertiv™ SwitchAir™**
Prevents overheating of network switches by directing cool air to switch intakes, keeping hot exhaust air out.

**Vertiv™ ACS Console**
Enables integrated remote monitoring, out-of-band management, and IoT connectivity.

**Vertiv™ KVM Switch**
Enables single-point access for switching between multiple computers.

**Vertiv™ Rack Cooling**
Provides energy-efficient cooling close to the IT equipment and UPS units.

**Vertiv™ Liebert® GXT5 TAA**
Helps protect mission-critical equipment from all power disturbances due to blackouts, brownouts, sags, surges or noise interference.

---

**Accessories**

**Racks and enclosures:**
Support a wide variety of equipment with the Vertiv™ VR Rack including servers, storage, switches, routers, PDUs, UPS units, console port servers, and KVM switches.

**Rails and mounting hardware:**
Install equipment with a four-post rail kit and hardware for mounting in a 19- or 23-inch rack or choose a two-post telecom rack for front- or mid-chassis, wall, or Zero U configuration.

**Rack mount PDUs:**
For basic or intelligent power distribution that helps prevent overloaded circuits in the data center, choose from products such as upgradable PDUs, inline power meters, transfer switches, and monitoring sensors.

**Extended battery modules:**
Enable scalable runtime for support during extended power outage situations by adding reliable power and protection to new or existing deployments.

**Environmental sensor:**
Maintain knowledge of remote environments with temperature, humidity and leak detection, or monitor available dry-contact sensors for security access control or smoke detection.

UPS manageability options

| Trellis™ Power Insight Software Management | Trellis™ Power Insight is a complimentary web-based software designed to monitor up to 100 Vertiv™ UPSs and Vertiv™ rPDUs |

*Vertiv™ RDU101 Network Communication card is a non-TAA accessory by itself, but when needed, it is matching TAA Compliance when it is ordered within the UPS N-bundles.

Liebert® MicroPOD - Maintenance bypass and output distribution

The Liebert® MicroPOD (Power Output Distribution) is a maintenance bypass option for UPS products, 3 kVA and below. It allows removal of the UPS without powering down the connected equipment. The 2U POD’s can be installed on the floor or mounted to a Liebert® GXT5 UPS using the included mounting brackets.
