

SYSTEM OVERVIEW

See detailed specifications on page 15.

Description:	Front Access Vertiv™ NetSure™ +24 VDC Battery Rack System consisting of a nominal 19" or 23" wide 7', 6', or 5' tall relay rack, battery trays, and busbar termination assembly. The battery trays accommodate a variety of front terminal +24V valve regulated lead acid (VRLA) batteries. Includes factory routed and lugged cabling from each battery tray to the termination assembly. May also be equipped with optional left and right side mounted battery disconnect circuit breakers. When equipped with battery disconnect circuit breakers, factory CB alarm wiring is provided to an alarm card. The alarm card provides external relay contacts and resistive battery for connection to customer external alarm circuits.
Application:	For use with Vertiv™ NetSure™ +24 VDC Power Systems and other +24 VDC Power Systems.
Spec. Nos.:	588810100 (19"). 588810200 (23").
Models:	24BA1200-19 (19"). 24BA1200-23 (23").
Output Voltage:	+24 VDC.
Capacity:	1200A, maximum, when equipped with four (4) or more battery trays.
Agency Approval:	UL Listed, Seismic Zone 4.
Framework Type:	Relay Rack.
Mounting Width:	19" (588810100) or 23" (588810200) Wide (Nominal) Relay Rack (part of system).
Mounting Depth:	588810100: Determined by battery trays ordered. A 16.5" deep, 21" deep, and 22" deep battery tray is available. 588810200: Determined by battery trays ordered. A 22.5" deep battery tray is available.
Access:	Front for Installation and Maintenance.
Color:	Dark Gray.
Environment:	0°C to +40°C (+32°F to +104°F).

ORDERING INFORMATION

List Options

Order the following by the items Part Number as specified in the following table.

When viewing electronically, click on the *List #* to jump to the detailed description page.

List No.	Part Number	Description
1	58881010001	Common Equipment, +24V, 19" Battery Rack System Includes (1) relay rack, (2) vertical tray mounting brackets, (1) busbar kit with covers, (12) cable lacing brackets, (1) instruction manual, and packaging.
10	58881010010	Battery Tray, 19" Mount, 16.5" Deep Includes tray, hardware, cable cut to length, lugs.
11	58881010011	Battery Tray, 19" Mount, 21" Deep Includes tray, hardware, cable cut to length, lugs.
12	58881010012	Battery Tray, 19" Mount, 22" Deep Includes tray, hardware, cable cut to length, lugs.
1	58881020001	Common Equipment, +24V, 23", 7' Battery Rack System Includes (1) 7' relay rack, (2) vertical tray mounting brackets, (1) busbar kit with covers, (12) cable lacing brackets, (1) instruction manual, and packaging.
2	58881020002	Common Equipment, +24V, 23", 6' Battery Rack System. Includes (1) 6' relay rack, (2) vertical tray mounting brackets, (1) busbar kit with covers, (10) cable lacing brackets, (1) instruction manual, and packaging.
3	58881020003	Common Equipment, +24V, 23", 5' Battery Rack System. Includes (1) 5' relay rack, (2) vertical tray mounting brackets, (1) busbar kit with covers, (8) cable lacing brackets, (1) instruction manual, and packaging.
11	58881020011	Battery Tray, 23" Mount, 22.5" Deep Includes tray, hardware, cable cut to length, lugs.

Notes:

- 588810100: Vertical tray spacing is automatically determined by battery tray selection; 7RU for List 10, 6RU for List 11, and 8RU for List 12.
- 588810200: Vertical tray spacing is automatically determined by battery selection; 6RU, 7RU, or 8RU. If no battery is selected, spacing is 8RU.
- 588810100: The locations of the cable lacing brackets is determined by the tray spacing, total of six (6) per side.
588810200: The locations of the cable lacing brackets is determined by the tray spacing, total of six (6) per side for 6RU or 7RU and five (5) per side for 8RU.
- Cable size for each tray is 2AWG for optional battery disconnect circuit breakers selected up to 150A and 1/0AWG for circuit breakers selected over 150A or for systems without battery disconnects.
- If a battery type is not selected, battery terminal lugs are provided and shipped loose for all batteries listed for use with the battery tray ordered and for the cable size determined in Note 3).

Vertiv™ NetSure™ +24 VDC Battery Rack System

System Application Guide

LIST DESCRIPTIONS

588810100 List 1: Common Equipment, +24V, 19" 7' Battery Rack System

Features

- ◆ Provides the following equipment: (1) nominal 19" wide by 7' tall relay rack, (2) vertical tray mounting brackets, (1) busbar kit with covers, (12) cable lacing brackets, (1) instruction manual, and packaging.
- ◆ Factory assembled per battery trays and optional battery disconnect circuit breakers ordered.

Restrictions

The relay rack accommodates up to six (6) battery trays (spaced 6RU or 7RU apart, as determined by the battery tray ordered), or five (5) battery trays (spaced 8RU apart).

Ordering Notes

- 1) Order as required.
- 2) Order Relay Rack Isolation Kit, P/N 10019128, as required. See "Relay Rack Isolation Kit" on page 10.

588810100 List 10: Battery Tray, 19" Mount, 16.5" Deep

Features

- ◆ Provides a 16.5" deep battery tray for the nominal 19" wide relay rack provided as part of List 1. The battery tray holds four (4) 12V front terminal valve regulated lead acid (VRLA) batteries. Battery cabling is factory provided and connected to the system's main busbars. Batteries are configured as two (2) 24V strings per tray.
- ◆ Trays can be ordered with or without battery disconnect circuit breakers. When circuit breakers are ordered, one is provided in the +24V lead of each battery string (2 circuit breakers per tray).
- ◆ Refer to the "Physical Size Information" section for dimensions.

Restrictions

Designed to accommodate the batteries listed under *Batteries* in the ACCESSORY DESCRIPTIONS section.

A single battery tray must mount at bottom of relay rack. Multiple battery trays must mount starting at bottom of relay rack and working upward. Factory spaces battery trays 7RU apart.

Cable size for each tray is 2AWG for optional battery disconnect circuit breakers selected up to 150A and 1/0AWG for circuit breakers selected over 150A or if circuit breakers are not selected.

Ordering Notes

- 1) Order up to six (6) battery trays per relay rack, as required.
- 2) Order batteries separately. See *Batteries* in the ACCESSORY DESCRIPTIONS section. Battery cables and lugs factory provided and connected.
- 3) If optional battery disconnect circuit breakers are desired, order per *Optional Battery Disconnect Circuit Breaker Kits* in the ACCESSORY DESCRIPTIONS section.

Vertiv™ NetSure™ +24 VDC Battery Rack System

System Application Guide

588810100 List 11: Battery Tray, 19" Mount, 21" Deep

Features

- ◆ Provides a 21" deep battery tray for the nominal 19" wide relay rack provided as part of List 1. The battery tray holds four (4) 12V front terminal valve regulated lead acid (VRLA) batteries. Battery cabling is factory provided and connected to the system's main busbars. Batteries are configured as two (2) 24V strings per tray.
- ◆ Trays can be ordered with or without battery disconnect circuit breakers. When circuit breakers are ordered, one is provided in the +24V lead of each battery string (2 circuit breakers per tray).
- ◆ Refer to the "Physical Size Information" section for dimensions.

Restrictions

Designed to accommodate the batteries listed under *Batteries* in the ACCESSORY DESCRIPTIONS section.

A single battery tray must mount at bottom of relay rack. Multiple battery trays must mount starting at bottom of relay rack and working upward. Factory spaces battery trays 6RU apart.

Cable size for each tray is 2AWG for optional battery disconnect circuit breakers selected up to 150A and 1/0AWG for circuit breakers selected over 150A or if circuit breakers are not selected.

Ordering Notes

- 1) Order up to six (6) battery trays per relay rack, as required.
- 2) Order batteries separately. See *Batteries* in the ACCESSORY DESCRIPTIONS section. Battery cables and lugs factory provided and connected.
- 3) If optional battery disconnect circuit breakers are desired, order per *Optional Battery Disconnect Circuit Breaker Kits* in the ACCESSORY DESCRIPTIONS section.

588810100 List 12: Battery Tray, 19" Mount, 22" Deep

Features

- ◆ Provides a 22" deep battery tray for the nominal 19" wide relay rack provided as part of List 1. The battery tray holds four (4) 12V front terminal valve regulated lead acid (VRLA) batteries. Battery cabling is factory provided and connected to the system's main busbars. Batteries are configured as two (2) 24V strings per tray.
- ◆ Trays can be ordered with or without battery disconnect circuit breakers. When circuit breakers are ordered, one is provided in the +24V lead of each battery string (2 circuit breakers per tray).
- ◆ Refer to the "Physical Size Information" section for dimensions.

Restrictions

Designed to accommodate the batteries listed under *Batteries* in the ACCESSORY DESCRIPTIONS section.

A single battery tray must mount at bottom of relay rack. Multiple battery trays must mount starting at bottom of relay rack and working upward. Factory spaces battery trays 8RU apart.

Cable size for each tray is 2AWG for optional battery disconnect circuit breakers selected up to 150A and 1/0AWG for circuit breakers selected over 150A or if circuit breakers are not selected.

Ordering Notes

- 1) Order up to five (5) battery trays per relay rack, as required.
- 2) Order batteries separately. See *Batteries* in the ACCESSORY DESCRIPTIONS section. Battery cables and lugs factory provided and connected.
- 3) If optional battery disconnect circuit breakers are desired, order per *Optional Battery Disconnect Circuit Breaker Kits* in the ACCESSORY DESCRIPTIONS section.

Vertiv™ NetSure™ +24 VDC Battery Rack System

System Application Guide

588810200 List 1: Common Equipment, +24V, 23" 7' Battery Rack System

Features

- ◆ Provides the following equipment: (1) nominal 23" wide by 7' tall relay rack, (2) vertical tray mounting brackets, (1) busbar kit with covers, (12) cable lacing brackets, (1) instruction manual, and packaging.
- ◆ Factory assembled per battery trays and optional battery disconnect circuit breakers ordered.

Restrictions

The relay rack accommodates up to six (6) battery trays when spaced 6RU or 7RU apart and five (5) battery trays when spaced 8RU apart. Battery selection determines tray spacing.

Ordering Notes

- 1) Order as required.
- 2) Order Relay Rack Isolation Kit, P/N 10019125, as required. See "Relay Rack Isolation Kit" on page 10.

588810200 List 2: Common Equipment, +24V, 23" 6' Battery Rack System

Features

- ◆ Provides the following equipment: (1) nominal 23" wide by 6' tall relay rack, (2) vertical tray mounting brackets, (2) busbar kits with covers, (10) cable lacing brackets, (1) instruction manual, and packaging.
- ◆ Factory assembled per battery trays and optional battery disconnect circuit breakers ordered.

Restrictions

The 6-foot relay rack accommodates up to five (5) battery trays when spaced 6RU apart and four (4) battery trays when spaced 7RU or 8RU apart. Battery selection determines tray spacing.

Ordering Notes

- 1) Order as required.
- 2) Order Relay Rack Isolation Kit, P/N 10019125, as required. See "Relay Rack Isolation Kit" on page 10.

588810200 List 3: Common Equipment, +24V, 23" 5' Battery Rack System

Features

- ◆ Provides the following equipment: (1) nominal 23" wide by 5' tall relay rack, (2) vertical tray mounting brackets, (1) busbar kit with covers, (8) cable lacing brackets, (1) instruction manual, and packaging.
- ◆ Factory assembled per battery trays and optional battery disconnect circuit breakers ordered.

Restrictions

The 5-foot relay rack accommodates up to four (4) battery trays when spaced 6RU apart and three (3) battery trays when spaced 7RU or 8RU apart. Battery selection determines tray spacing.

Ordering Notes

- 1) Order as required.
- 2) Order Relay Rack Isolation Kit, P/N 10019125, as required. See "Relay Rack Isolation Kit" on page 10.

Vertiv™ NetSure™ +24 VDC Battery Rack System

System Application Guide

588810200 List 11: Battery Tray, 23" Mount, 22.5" Deep

Features

- ◆ Provides a 22.5" deep battery tray for the nominal 23" wide relay rack provided as part of List 1. The battery tray holds four (4) 12V front terminal valve regulated lead acid (VRLA) batteries. Battery cabling is factory provided and connected to the system's main busbars. Batteries are configured as two (2) 24V strings per tray.
- ◆ Trays can be ordered with or without battery disconnect circuit breakers. When circuit breakers are ordered, one is provided in the +24V lead of each battery string (2 circuit breakers per tray).
- ◆ Refer to the "Physical Size Information" section for dimensions.

Restrictions

Designed to accommodate the batteries listed under *Batteries* in the ACCESSORY DESCRIPTIONS section.

A single battery tray must mount at bottom of relay rack. Multiple battery trays must mount starting at bottom of relay rack and working upward. Factory spaces battery trays 6RU, 7RU, or 8RU apart as determined by battery selected. If no battery selected, factory spaces battery trays 8RU apart.

Cable size for each tray is 2AWG for optional battery disconnect circuit breakers selected up to 150A and 1/0AWG for circuit breakers selected over 150A or if circuit breakers are not selected.

Ordering Notes

- 1) Order batteries separately. See *Batteries* in the ACCESSORY DESCRIPTIONS section. Battery cables and lugs factory provided and connected.
- 2) If optional front battery covers are desired, order per *Optional Front Battery Covers* in the ACCESSORY DESCRIPTIONS section.
- 3) If optional battery disconnect circuit breakers are desired, order per *Optional Battery Disconnect Circuit Breaker Kits* in the ACCESSORY DESCRIPTIONS section.

ACCESSORY DESCRIPTIONS

Relay Rack Isolation Kit

Features

- ◆ Provides electrical isolation of the relay rack from the concrete floor. Includes an insulating pad, four (4) insulating bushings, and four (4) flat washers to be used with the anchors used to mount the relay rack to the floor.

Ordering Notes

- 1) Order P/N 10019128 for a Relay Rack Isolation Kit to be used with 588810100.
- 2) Order P/N 10019125 for a Relay Rack Isolation Kit to be used with 588810200.

Vertiv™ NetSure™ +24 VDC Battery Rack System

System Application Guide

Optional Front Battery Cover Kits

Features

- ◆ Provides a front battery cover to the battery tray.

Restrictions

For 23" battery trays only.

Ordering Notes

- 1) Order one (1) kit per tray, as required, from the following table.

Part Number	Height
562128	8U
562053	7U
562145	6U

Optional Battery Disconnect Circuit Breaker Kits

Features

- ◆ Provides a battery disconnect circuit breaker housing mounted on the left and right sides of the battery tray. Selected circuit breakers factory installed and wired.

Restrictions

Factory wires Battery Rack System with 2AWG cables for battery disconnect circuit breakers selected up to 150A and 1/0AWG cables for circuit breakers selected over 150A.

Ordering Notes

- 1) Order two (2) kits per tray (one right side mounted and one left side mounted), as required, from the following table. Also order an optional circuit breaker guard per circuit breaker if desired.

Part Number	Description	Circuit Breaker Guard
559813	Single Pole, Right Side Mounted	not available
559814	Single Pole, Left Side Mounted	
559815	Double Pole, Right Side Mounted	548014
559816	Double Pole, Left Side Mounted	

- 2) Order two (2) circuit breakers per tray from the following table.

Ampere Rating	P/N Electrical/Mechanical Trip ¹ (Black Handle)	No. of Poles
30	256693100	1-Pole
35	256693500	
40	256693900	
50	256694300	
60	256694700	
70	256695100	
75	256695500	
100	256695900	2-Pole
125	100765	
150	100763	
200	121810	

Circuit Breaker Alarm Operation:

¹Provides an alarm during an electrical or manual trip condition.

Vertiv™ NetSure™ +24 VDC Battery Rack System

System Application Guide

SPECIFICATIONS

- 1.1 Environmental Ratings
 - 1.1.1 Operating Ambient Temperature Range: 0°C to +40°C (+32°F to +104°F).
 - 1.1.2 Storage Ambient Temperature Range: -40°C to +85°C (-40°F to +185°F).
 - 1.1.3 Humidity: This system is capable of operating in an ambient relative humidity range of 0% to 95%, non-condensing.
 - 1.1.4 Altitude:
 - (A) Operating: -200 feet (-61 meters) to 10,000 feet (3048 meters). Derate operating ambient temperature range by 2°C per 1000 feet (305 meters) above 5000 feet (1524 meters).
 - (B) Storage and Transportation: -1,000 feet (-305 meters) to 50,000 feet (15,241 meters).
 - 1.1.5 Mounting: This equipment is intended only for installation in a Restricted Access Location on or above a non-combustible surface.
 - 1.1.6 Aisle Space Clearance: Recommended minimum aisle space clearance is 2'6" for the front of the Battery Rack System and 4" for the rear of the Battery Rack System.
- 1.2 Compliance Information
 - 1.2.1 Safety Compliance: This power board is UL Listed as a DC Power Distribution Center for Communications Equipment. This unit meets the requirements of CSA 22.2, No. 225 and is tested and Certified by UL ("c UL") as a Custom Built Power Distribution Center for Communications Equipment.
 - 1.2.2 Seismic Compliance: NEBS Zone 4 Earthquake compliant when equipped with four (4) or fewer battery trays.

MECHANICAL SPECIFICATIONS

Overall Dimensions – 588810100 List 1, 2, or 3 with List 10, List 11 or List 12

Notes:

1. Dimensions are in inches.
2. P/N 565381 battery tray shown, P/N 565376 similar.

List No.	Tray P/N	Tray Overall Dimensions	Weight (LBS)		Dimensions		
			w/ Circuit Breaker Option	w/out Circuit Breaker Option	A	B	C
588810100 List 10	565376	19" Mounting 16.5" Deep			16.5	7.29	7RU
588810100 List 11	565381	19" Mounting 21" Deep			21.0	7.29	6RU
588810100 List 12	565384	19" Mounting 22" Deep			22.35	7.29	8RU

4. Finish: Dark Gray

BATTERY MANUFACTURER INFORMATION

The Battery Rack Systems described in this System Application Guide are designed to accommodate batteries from various manufacturers. The following are referenced in this document.

C&D: C&D Technologies, Inc., Powercom Div., 1400 Union Meeting Road, Blue Bell, PA 19422-0858

Deka: East Penn Mfg. Co., Inc., Lyon Station, PA 19536-0147

Douglas: Douglas Battery Mfg. Co., 500 Battery Dr., Winston-Salem, NC 27117-2159

Fiamm: FIAMM T.I., 23880 Industrial Park Drive, Farmington Hills, Detroit, MI 48335

GNB Marathon™: GNB Industrial Power, a Division of Exide Technologies, Princeton, NJ 08543

Northstar: NorthStar Battery Co. LLC, 4000 Continental Way, Springfield, MO 65803

PowerSafe EnerSys™: EnerSys Inc., Reading, PA, 196212-4145
