Vertiv™ BBE PRO, Vault Mount Series

Broadband Edge Enclosures

VERTIV

Key Features

- This enclosure easily bolts to top of various hand-hole/vaults with specific cover cutout option.

- Three mounting configurations available: Universal Rear-mounting Bracket (URB), fiber distribution mounting plate, plastic center mounting plate.

- Self-locking lift-off dome for 360° access to all fiber terminations, splicing and equipment.

- Raises fiber drop above grade for easy access and identification.

- Seamless integral flood protection.

Description

The Vertiv™ BBE PRO, Vault Mount Series of non-metallic pedestals incorporates strength, rigidity and security in a high performance thermo-plastic material that meets or exceeds Telcordia GR-13 CORE specifications.

Application

The vault mount enclosure easily bolts to the top of a pre-cast vault with the approved cutout. Three mounting bracket options are available: the Universal Rear-mounting Bracket (URB) is used for optical terminal block mounting; the fiber distribution mounting plate is designed for slack storage, splicing and drops; and the plastic center mounting plate is used for copper distribution and wire management similar to the standard Vertiv BBE PRO series.
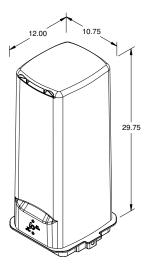

Various hand-hold vaults accommodate Vertiv™ BBE PRO, Vault Mount Series enclosures. To order the vault, contact your hand-hole vault manufacturer directly.

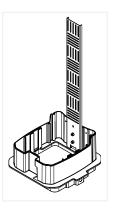

*Note: Hand-hole vault*
(shown above) is not included
