

Vertiv™ Outdoor Cabinet Single

Protect essential gear with weatherproof simplicity

Highlights

The Vertiv™ Outdoor Cabinet Single, is a rugged, outdoor-rated cabinet, built to protect and organize vital equipment for broadband, industrial, and edge applications. It supports power, fiber management, airflow, and security needs in demanding environments. With a welded aluminum frame, flexible mounting rails, built-in power and grounding options, and weather-resistant gaskets, it's ready for harsh conditions. The cabinet includes a solar shield, insulation, and is rated to NEMA 3R or 4 standards.

Vertiv™ Outdoor Cabinet Single

Typical applications

Engineered for outdoor broadband, telecom, and edge network deployments requiring secure, weather-resistant protection.

Ideal for:

- Outdoor broadband utilization
- Broadband expansion in rural environments
- Fiber distribution points in exposed environments
- Utility, transportation, or industrial applications where environmental sealing is critical

Outdoor-rated protection

Built to NEMA standards for resistance to rain, dust, and environmental exposure

Thermal & cable management

Designed with integrated venting, environmental control options, and gasketed cable entry points to maintain performance in outdoor climates

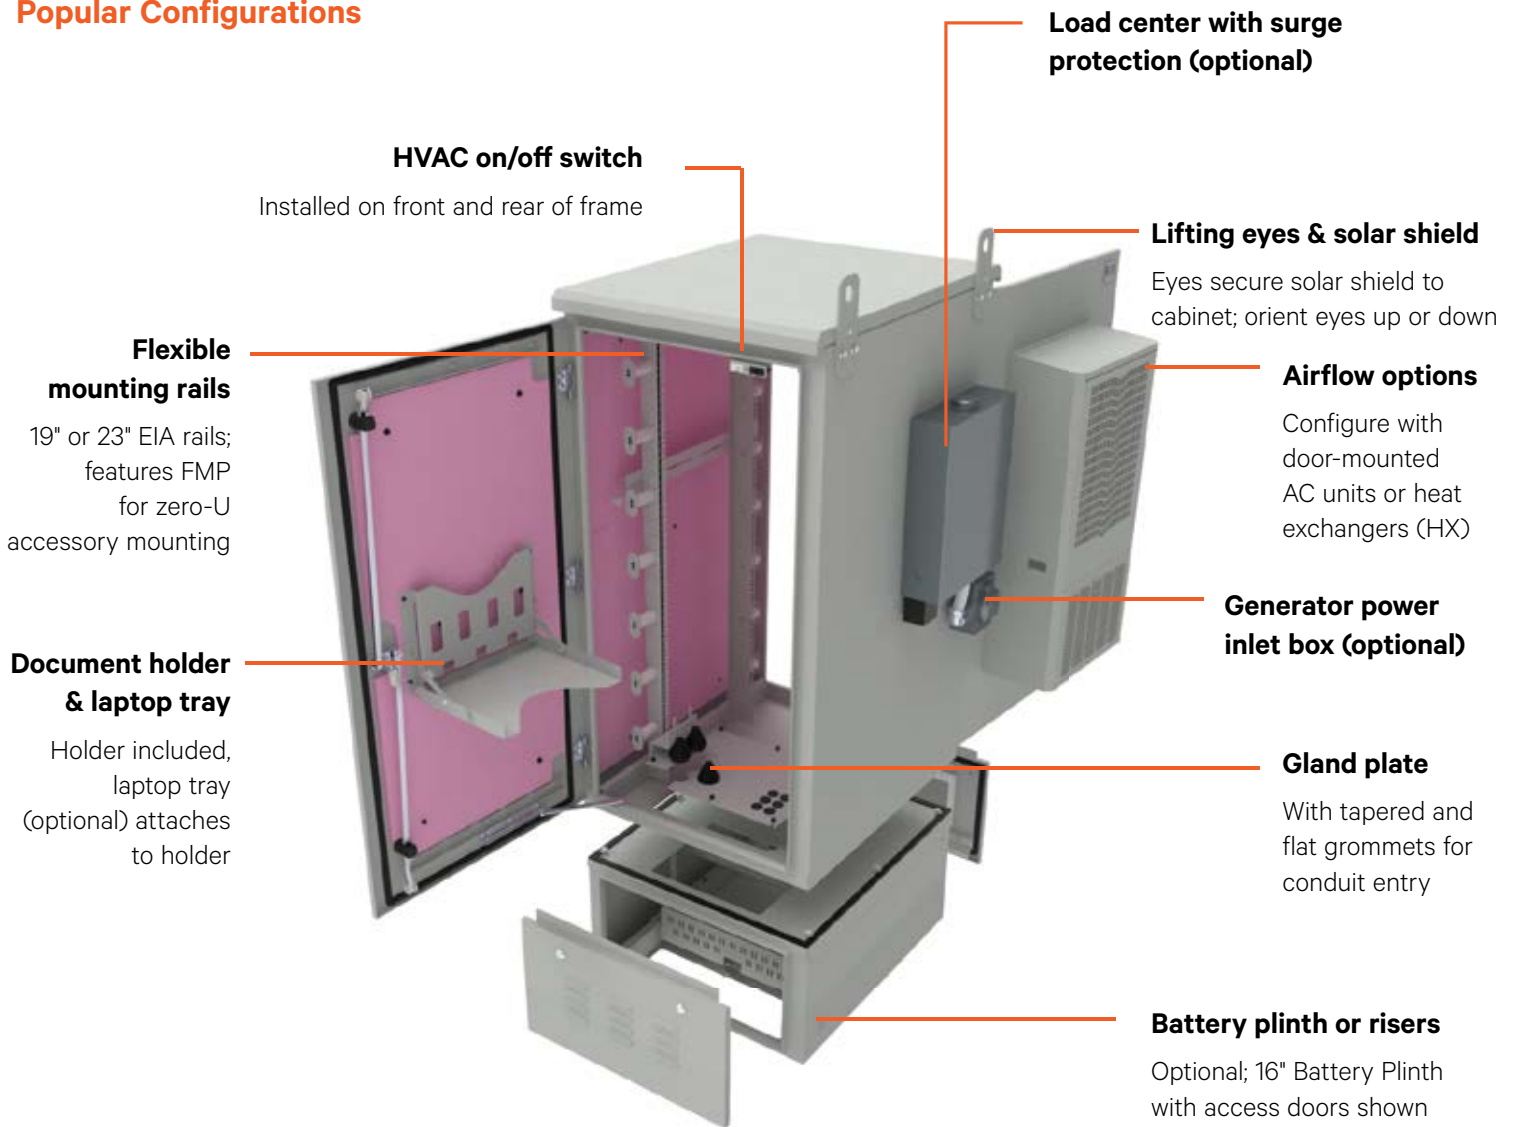

Secure, durable construction

Heavy-gauge aluminum body with locking, gasketed doors provides long-term protection of active electronics and power components
