

Vertiv™ Frame Rack Vertical Cable Manager

No assembly required & universally compatible

Highlights

The Vertiv™ Frame Rack Vertical Cable Manager delivers a versatile and high-function cable management system for racks and data spaces of all sizes. With configurations for front-only or front/rear access, built-in cable routing fingers, and PDU-mounting options, the VCM supports both quick installations and structured cable infrastructure. Designed for flexibility and compatibility, this manager integrates with existing rack systems to maintain a clean and efficient network environment.

Vertiv™ Frame Rack Vertical Cable Manager

Typical applications

Designed to manage cable routing and organization across diverse IT environments.

Ideal for:

- Network closets and patch-panel racks needing organized vertical cable runs
- Server rooms where front and rear cable access is required
- Equipment rows with dense cabling and PDU mounting needs
- Telecommunication hubs requiring modular, accessible cable infrastructure

Universal rack compatibility

Works with front-only or front/rear mounting, aligning with standard rack systems

Integrated cable routing

Includes plastic fingers, keyhole patterns and optional slack spools for clean management

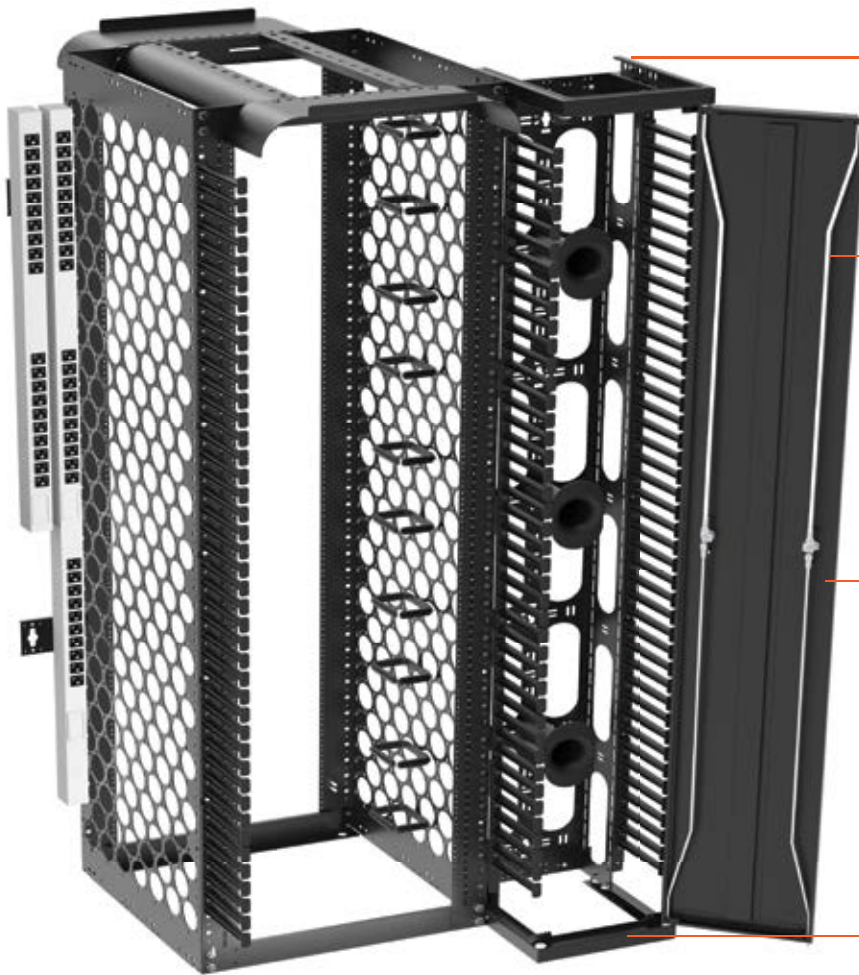

Tool-Free setup

Straightforward installation that simplifies deployment and ongoing maintenance

Popular Configurations

Compatibility

Compatible with all Vertiv™ Racks and Vertiv™ Frame Racks. Shown here with a Vertiv™ Frame Rack

Fast installation

Installs with just 4 bolts

Dual-hinged doors

Left-hand or right-hand opening

Self-supporting

Rests on the floor for improved stability
