

# Environmental policy statement

## Our Vision

Vertiv believes in environmental stewardship, recognizing that responsible business practices benefit our employees, customers, shareholders, and the communities in which we operate.

## Our Commitment

We integrate environmental responsibility into our business by minimizing waste, conserving resources, and continuously improving our environmental performance.

## Our Principles

- Comply with applicable environmental laws and other requirements governing our business.
- Prioritize continuous environmental improvement by allocating resources, applying risk assessments, and measuring performance.
- Promote environmentally responsible practices that aim to reduce pollution and minimize waste through appropriate resource use.
- Engage employees and stakeholders through training and proactive participation.
- Establish appropriate environmental goals for our business, measure progress against such goals, and remain transparent in our adoption of responsible business practices.
- Prepare for environmental risks by developing emergency and contingency plans, together with operating procedures aimed at enhancing safety in our business.

Vertiv continuously works to enhance our environmental performance with responsible business practices to minimize our environmental impacts.
