Vertiv™ Knürr™ Priority Range

Vertiv

Vertiv designs, builds and services mission critical technologies that enable the vital applications for data centers, communication networks, and commercial and industrial environments. We support today's growing mobile and cloud computing markets with our portfolio of power, thermal, infrastructure management products, software and solutions, all complemented by our global service network. Bringing together global reach and local knowledge, and our decades-long heritage including brands like, Liebert® and NetSure™, our team of experts is ready to take on your most complex challenges, creating solutions that keep your systems running — and your business moving. Together, we're building the future of a world where critical technologies always work.

Your vision, Our passion.

Vertiv™ Knürr™ MIR2 Server Rack

Vertiv™ Knürr™ MIR2 – Server Cabinet Features

- With fixed 19" installation from front and rear for installations in accordance with IEC 297-3.
- Perforated single-leaf front and rear doors.
- Special 19" server extrusions to accommodate all standard 19" servers.
- Installations in accordance with IEC 297-3.
- Cable inlet via floor and via cover.
- Cable inlet at cover rear completely removable, making cover assembly/ disassembly possible after cabling.

Stowing space

- To front 80 mm.

Load-bearing capacity

- 8000 N static.

Protection class

- IP 20.

Tests

- Grounding in accordance with VDE 0100 T 540.
- Grounding in accordance with DIN EN 60950.
- IP test in accordance with EN 60529.

Material/ Surface

- Extruded aluminum profile base frame
- Plain die-cast aluminum corner connectors
- Galvanized sheet steel panels, powder-coated structure.

- Sheet steel doors, powder-coated structure.
- 19" extrusions, 2.0 mm sheet steel, galvanized.

Color

- x = .1 visible surfaces and cladding panels RAL 7035 light gray.
- x = .8 visible surfaces and cladding panels RAL 7021 black-gray.

Scope of delivery

- 1 x base frame.
- 4 x 19" sheet steel server extrusions incl. U marking.
- 2 x side panels with quick locks.
- 1 x cover with rear cable inlet (sliding panels in three parts, may also be opened complete).
- 1 x front door, single-leaf with handle and receptacle for locking cylinder.
- 1 x rear door, single-leaf with handle and receptacle for locking cylinder.
- 1 x grounding set, complete (VDE 0100).
- 4 x leveling feet

How supplied

- Assembled.

Note

- For drawers, pull-out shelves and chassis rails please also order extrusion adapter 01.147.640.9.

Additional configuration options are available in our Vertiv™ Knürr™ IT Special Catalog

Vertiv™ Knürr™ MIR2 All-in-One server and network cabinets

Material

- Extruded aluminum profile.
- Die-cast aluminum corner connectors.
- Galvanized sheet steel cladding panels.
- Sheet steel doors.

Installation dimensions in accordance with IEC 60297-1 and IEC 60297-2

- Height: 42 U / 47 U.

Capacity

- Front stowing space 80 mm to 215 mm.
- Internal hinge: 130° as a cabinet row, 160° as a single cabinet.

Installation types

- Stationary, or mobile.

Surface/color

- Polished base frame
- Visible panel surfaces. Powder-coated black-gray RAL 7021 and light gray RAL 7035.

Static load

- 8000 N (stationary version).
- 4000 N (mobile version).

Tests depending on version

- Grounding and protective conductor testing. In accordance with DIN EN 60950.

Vertiv™ Knürr DCM™

Configurator

- Up to 2.5 million different assembly options

Vertiv™ Knürr DCM™

Configured by you

Impressive number of variations:

There are now up to 2.5 million options for a configuration with the 'Configurable Article Number' (which replaces the old order numbers).

A system building box that significantly simplifies your combinations.

This 'Configurable Article Number' reproduces all requested properties via multiple choice (see chart below), without requiring detailed rack descriptions.

Definite identification is also possible with a repeat order or upgrade.

The 'Configurable Article Number' makes a significant contribution to simplifying the selection and ordering process.

Priority Range

Additional configuration options are available in our Vertiv™ Knürr™ IT Special Catalog

Chassis runner

Can be hooked on and screwed on

- For installation in 19" rack and 19" enclosure.
- Can be hooked on for quick and easy mounting.
- Can also be attached with screws to accommodate heavier loads.
- Can be screwed from inside (used in rack suites).
- Adjustable height to suit various main-section heights.

Material/Finish

- Sheet steel, 2.0 mm.
- Zinc-passivated, blue chrome-plated.

Load rating

- 1000 N max. with even load distribution.

Scope of delivery

- 2 x chassis runners.
- 1 x Mounting kit.

How supplied

- In pairs.

Note

- When selecting the chassis runner, please take into account the depth "d" of the rack or enclosure. Four 19" extrusions are required for mounting.

19" QuickFix shelf

Tool-less assembly

- Quick and easy tool-less mounting. Mounted on 19" cutouts.
- Quick and easy tool-less fitting (one click) and removal (quarter turn).
- Suitable for all racks and enclosures with 19" mounting hole extrusions (9.0 x 9.0 square holes).
- Adjustable depth to accommodate variable recess depths and special dimensions.
- Perforated to optimize air supply.

Material

- Sheet steel, 1.0 mm.

Finish

- Final digit of order number .1: powder-coated texture, RAL 7035, light-grey.

- Final digit of order number .8: powder-coated texture, RAL 7021 dark-grey.

Load rating

- 700 N static with even load distribution.

Scope of delivery

- 1 x 19" QuickFix shelf.
- 1 x Mounting kit.

How supplied

- In sets.

Note

- Cannot be used for 19" t-slot extrusions.
- Nothing may be attached on the first upper U otherwise the shelf can not be mounted in the 19" cutouts.

Vertiv™ Knürr™ CoolBlast Fan Unit for Roof Installation

Unregulated and thermostatically controlled

- For forced cooling of the cabinet.
- Suitable for retrofitting in MIR2/Vertiv™ Knürr DCM™ roof.
- DC versions and 115 VAC versions on request (see CoolBlast fan inserts).
- In thermostatically-controlled version: Thermostatically-controlled fan function (ON/OFF), adjustable from 0° to +60° C.

Material

- Housing: Sheet steel, stainless steel mesh.

Surface

- Galvanized.

Approvals

- CE marking in accordance with Low Voltage Directive 73/23/EEC, EMC Directive 89/366/EEC.

Scope of delivery

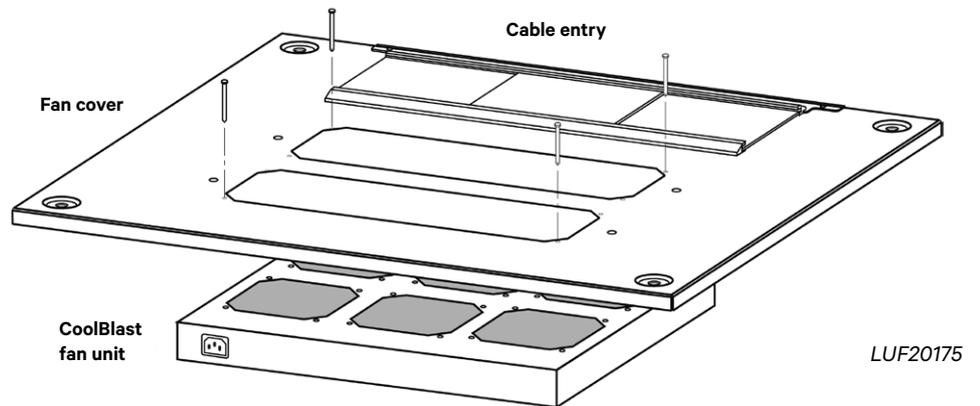

- 1 CoolBlast fan unit.
- 13 m network cable with safety plug (230 VAC).
- Assembly material.
- Operating manual.

How supplied

- Assembled, wired and tested.

Note

- Please additionally order specific network cable!

DOS20068 with overvoltage protection.

Vertiv™ Knürr™ DIS Rack PDU Safety basic

- For protection against transient overvoltages from the network caused e.g. by machines being switched on and off
- In the case of critical overvoltages, a disconnection from the network takes place.
- After the safety arrester has been triggered, the green function display goes out. The socket strip is then no longer ready for usage. For replacement of safety arrester, please send plug strip to manufacturer!
The protective effect of test category type 3 or requirement class D is a device protection, i.e. fine protection. For optimum protection, protective installations of test category or requirement class 1 and 2 or B and C should be provided upstream in the building installation.
- 19" installation possible (for length 483 mm).
- Socket rotation: 45°.
- Supply line: H05VV-F 3G 1.5 mm².
- Molded angle plug.

Material/Finish

- Housing: closed sheet steel extrusion, galvanized, powder-coated structure.
- Plastic parts: vampamide 6 0024 VO (UL94), recyclable.
- Internal conductor: continuous busbars, brass.

Dimensions

- Distance between sockets: 50 mm.
- Height: 45.5 mm.
- Housing width: 44.4 mm (= 1 U).

Approvals/Certificates

- CE designation in accordance with:
 - Low Voltage Directive 2014/35/EU
 - EMC Directive 2014/30/EU
 - RoHS-Directive 2011/65/EC.

Color combination

- Order number end figure .1: RAL 7035 Light gray
- Order number end figure .6: Housing RAL 2003 pastel orange. Plastic parts: RAL 7035 Light gray

Technical data

- Test class: Type 3 – in accordance with DIN EN 61643-11.
- Requirement class: D – in accordance with VDE 0675-6.
- Network voltage: 230 VAC.
- Nominal current: max. 16 A.
- Limit discharge current (8/20 μs): 10 kA.
- Response time: < 25 ns.
- Protective level (at 100 A varistor peak current): L against N: < 800 V / L/N against PE: < 1500 V.

Scope of delivery

- 1 socket strip.
- 2 securing brackets.
