

VERTIV™ BBE SE SERIES

BWIRE Broadband Edge Enclosures

KEY FEATURES

- Rugged metal housing made of mill-galvanized steel for durability and low maintenance costs.
- Our unique multi-stage paint process meets or exceeds EPA standards, and provides a tough corrosion-resistant finish for longer life.
- Both front covers are removable for easy access to service wire and buried cable.
- May be self-supporting, stake-, joint-, pole- or wall-mounted for flexible installation capability.

Description

BWIRE is a green round-cornered square-design telephone wire storage enclosure.

Application

The BWIRE storage enclosure is recommended for storing service wire ends until they are needed for unfinished houses. The BWIRE Enclosures will hold up to eight buried service wire ends that have been joined to a buried cable in a below-ground splice. It also houses one 50-ft. loop of buried service wire.
