Vertiv™ Liebert® GXE UPS

1000 - 3000 VA 230V

Essential and Affordable UPS
for High Performance
Power Protection

Essential and affordable Uninterruptible Power Supply (UPS) for high performance protection

The Vertiv™ Liebert® GXE UPS is an online double conversion solution which offers power protection in an affordable, efficient system with deployment and operation flexibility.

The high output power factor (0.9) of the Liebert GXE single-phase UPS enables continuous and reliable power to more connected devices, protecting them against many disturbances in the AC mains with the online double conversion technology and the input surge protection.

The high efficiency in both line and ECO modes of operation for this already affordable UPS also drives energy and operational costs savings.

Available in 1, 1.5, 2 and 3kVA power ratings in either a compact tower form factor, or in a rack/tower form factor with flexibility for mounting in either tower position or inside a rack cabinet together with the IT equipment critical for any application. Moreover, the capability to add external battery cabinets in the rack/tower models provides scalable runtime for those applications requiring even a longer period of backup in case of AC mains failures. It is combined with a powerful internal charger with a maximum of 6 Amps for a fast recharge.

In addition to the extended runtime, having multiple monitoring options make this compact UPS ideal for delivering best-in-class power protection to equipment at the edge of networks or in remote sites.

Vertiv™ Liebert® GXE Features

- High output power factor (0.9)
- High efficiency in online mode (up to 91%)
- Even higher efficiency (up to 96%) in ECO mode
- Compact tower only form factor or flexible rack/tower convertible design
- User-friendly LCD interface
- Fast recharge time (<4 hours to 90% for internal batteries)
- Extended runtime with up to 4 optional External Battery Cabinets (EBC)
- Hot-swappable user replaceable internal UPS batteries
- Remote management capability with optional Network Communications Card
- (8) IEC60320 C13 outlets (all models), plus (1) C19 (3kVA model)
- Automatic internal bypass
- Free UPS management software
- Vertiv™ Life™ Service to maximize UPS availability

What's in the box?

- Vertiv™ Liebert® GXE UPS
- Quick Installation Guide
- Safety Instructions
- Adjustable 4-post rack mounting kit (rack/tower models only)
- Rack mounting ears & hardware
- Input power cables (UK, AUS, Schuko. 1.8 m)
- Output power cables IEC C13-C14 (x2 in 2-3kVA models, and x1 in 1-1.5kVA models)
- USB cable type A-B (1.2 m)
- Stabilizing feet for tower configuration (rack/tower models only)
- Free Vertiv™ Power Assist software for local UPS status and shutdown, or Vertiv™ Power Insight™ for remote network management

Vertiv™ Liebert® GXE 1000 VA rack/tower shown with an optional 2U external battery cabinet

Vertiv™ Liebert® GXE Features and Benefits

PF 0.9 High output power factor (0.9)
More usable power enables more connected loads saving space and costs.

Efficiency (up to 91%) in online mode
Higher efficiency means an optimized energy management and lower heat dissipation, thus providing energy savings and improved reliability.

Remote monitoring
Manageability Achieve Industry-Leading Cybersecurity with Confidence In today's fast-evolving digital landscape, high-level security is no longer optional— it's a requirement. Our product offers the highest industry-standard security certifications, including UL2900 and in progress IEC62443-4-2, ensuring your systems meet the latest cybersecurity standards.

LCD display
It provides insight to UPS status for easy installation and operation.

Compact tower design
Tower form factor with a compact design for non-rack applications.

Hot-swappable user replaceable batteries
Easy replacement of the internal batteries without power interruption.

Multiple power sockets
x8 IEC C13 output sockets in all the ratings to protect more devices.

Flexible Rack / Tower models
Space-saving UPS provides rack space optimization and flexible installation.

Rack mounting kit included
4-post rack mounting kit included in rack/tower models for easy and immediate installation.

Fast recharge time
Powerful integrated charger, recharging internal batteries in less than 4 hours @90%. Up to 6 Amps maximum capacity with EBCs connected in R/T models.

External battery cabinets
Up to 4 external battery cabinets can be connected in rack/tower models for applications requiring extended runtime.
Vertiv™ Liebert® GXE Applications

IT

- Servers
- Networking equipment
- Data storage

Finance

- Branch offices
- Closed-circuit televisions and data protection
- ATMs

Telecom

- 5G mobile stations
- Access and "last mile"
- Small control rooms

Industrial

- Manufacturing sites
- Control equipment and programmable logic controllers (PLCs)
- Data and networking equipment

Education

- Networking closets
- Networking equipment
- Office protection

Government

- Distributed offices
- Closed-circuit television (CCTV) and data protection
- Small server and storage rooms

Retail

- Several point of sale systems
- Networking and wiring closets
- Security and voice over internet protocol (VoIP) telephony

Edge

- Distributed cloud services
- Content providers
- Sensors and data stations

To get the utmost performance, upgrade to Vertiv™ Liebert® GXT5

Liebert® GXT5 750VA - 3000VA extra features

Unity output power factor (1.0)	3 years standard warranty
Controllable output power sockets	Up to 10 external battery cabinets
Even higher efficiency in online mode (up to 94%)	Autodetection of external battery cabinets
Improved graphical LCD display	Improved battery charger
Lithium-ion battery models available	Frequency converter mode

UPS Part number: GXE3-3000IRT2UXL
See notes below about runtime. Runtimes in minutes.

EBC Part number: GXE3-EBC72VRT2U

Note: Approximate runtimes at 25ºC for batteries in new conditions, fully recharged and pure resistive load. Actual runtimes can vary due to battery age, temperature or configuration.
Liebert GXE Tower models do not allow connection of External Battery Cabinets.

Comprehensive Service Support for Critical Systems

Power Emergency Package

Providing more than the standard warranty and extension program, this five-year protection program is valid for Liebert® GXE single-phase UPS units at 3 kVA. Purchased within six months from the equipment purchase date, the program includes:

- **Advance replacement or repair of faulty unit** within 8 working hours or incident ticket acknowledgement up to 2 working days after claim.

- **100% coverage of electronic parts and failed batteries,** excluding battery misuse and/or reduced autonomy.

- **Free shipping** from the following European countries: Albania, Austria, Belgium, Bosnia & Herzegovina, Croatia, Czech Republic, France, Germany, Greece, Ireland, Italy, Kosovo, Luxemburg, Macedonia, Malta, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, The Netherlands, Turkey, and United Kingdom.

- **24x7 access** to professional helpline.

- **Preventive Monitoring and diagnostic Service** via Vertiv™ LIFE™ Services, included in the Premier version of the package (available only for 3kVA version).

Installation and Start-up Services

Installation and Start-up Services provide on-site technical support for installation and start-up of your UPS or battery cabinet.
Get your Liebert® GXE up and running fast, thanks to the expertise of a Vertiv certified engineer.

Build Your Total Infrastructure Solution with Vertiv

Discover expert designed IT infrastructure solutions with proven success in diverse environments and countless applications.

Vertiv™ Geist™ rPDU
Reliable power distribution with outlet level remote monitoring and management providing the highest level of power visibility and control.

Vertiv™ VR Rack
Self-contained 42U server rack designed to simplify equipment installation and provides an additional 6cm of useable depth.

Cable and Air Flow Management
Included accessories enable proper cable management and airflow to keep your equipment cool.

Vertiv™ VRC
Keep critical IT equipment cool with a dedicated high-efficiency rack-mount cooling system with scalable capacity.

Software and IT Management
Monitor the entire system either locally or remotely to enable you are alerted of out-of-range conditions that could result in costly downtime.

Vertiv™ Liebert® GXE
Helps to protect mission critical equipment in the event of power loss or extreme power fluctuations.

Visit Vertiv.com or contact a Vertiv Sales Representative today to find out how Vertiv can help you configure an all-in-one infrastructure solution.
