

Vertiv™ CoolPhase Condensing Unit

Unpacking Instructions for 21, 28 and 35 kW models.

The following tools/equipment are required to unpack Vertiv™ CoolPhase Condensing Unit:

- Safety boots.
- Gloves to avoid splinters when the panels are being handled.
- A crane and a fork lift to move unit closer to its final location.

Follow these instructions to unpack the Unit:

1. Place the package on a flat surface, then trim the plastic wrap and the polystyrene to release the unit.
2. Remove the top honeycomb piece.
3. Step aside the honeycomb placed in the sides of the unit, included the foam of the corners, then take out the user manual for Installation.

To remove the unit from the pallet, take off the shipping brackets by detaching the four 3/8" hex screws and washers of each bracket. Refer to Handling Instructions document for further details.
