VERTIV INSIGHTS

Innovating Out Loud Blog Series

To thrive in business, employees must work together and find a way to do new things or do existing things better. Read the first two installments in this series for a look at Vertiv's culture of innovation through the lens of five key behaviors that help bring new and exciting ideas into focus.

Business Continuity Planning:

Global Unrest Offers a Stress Test

An important note to remember in this distributed world: A remote workforce does not absolve the employer of responsibility for employee safety. Crisis management and training must continue, but you must tailor it to the person and their location to ensure their safety and the security and continuity of their work product.
