Your IT Edge Infrastructure Made Easy

3 new technologies to power your data center

VERTIV.

✓ **Easy integration of components**

✓ **Fully customizable for your IT needs**

✓ **Rapid deployment for quick installation**
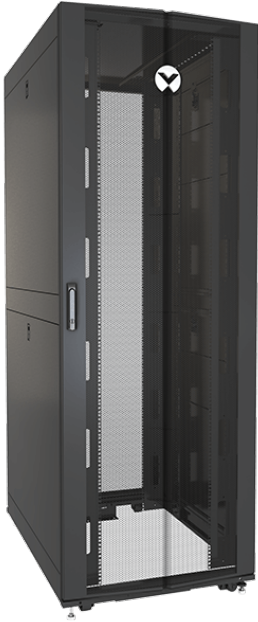

1 Vertiv™ VR Rack

The Vertiv VR supports a wide variety of equipment, including: servers, storage, switches, routers, rack PDUs, UPSs, console port servers and KVM switches. This rack gives you the flexibility you need with easy installation.

Features and Benefits

- 77% perforated locking doors for optimal air flow

- Strong and durable solid frame that can hold up to 3000 lbs (1360 kg) static load

- 2.5" more usable depth than similar sized racks

- Convenient tool-less rack PDU and cable management

- 3-year warranty, 5-year warranty if registered after purchase

2 Vertiv Liebert® GXT5 Uninterruptible Power Supply

The Vertiv Liebert GXT5 UPS is an online double conversion UPS solution which offers premium power outage protection and continuous power conditioning in a compact and flexible rack/tower design. It was specifically designed to protect critical infrastructure in both centralized and edge network applications.

Features and Benefits

- Three-year comprehensive factory warranty for UPS and battery with next-day advanced exchange to support maximum availability

- High output power factor = up to 1.0

- Full-color graphic LCD with gravity sensing orientation

- RDU101 NIC for SNMP communications and environmental sensor support

- Higher efficiency (up to 98%) in Active ECO mode

3 Vertiv™ Rack Power Distribution Unit (PDU)

Vertiv Rack PDUs are available in models to meet unique site needs. The Basic rack PDUs offer reliable, space-saving, and cost-effective power distribution. The Intelligent rack PDUs, a wide range of monitored and switched rack PDUs, are equipped with a network interface to allow for remote monitoring, management, and automated alerts.

Features and Benefits

- Outlet level monitoring gives a detailed view of power distribution to specific equipment

- 60°C working ambient variants for high temperature environments

- Compact size to install in tight spaces

- Color-coded U-Lock system to secure power cords and avoid accidental disconnections

- Reduces energy costs while increasing efficiency

- 3-year warranty, 5-year warranty if registered after purchase
