

PRODUCT END-OF-LIFE (EOL)

Chloride® FP40RM Modular DC UPS

OVERVIEW

- EOL Announcement: April 15, 2019
- End-of-Sale: May 1, 2019
 - Last day for old product orders
 - Last day for extended warranty sales
- Last Shipment Date: September 2019

Effective May 1, 2019, Vertiv Industrial Systems S.A.S. will end distribution of the Chloride® FP40RM Modular DC UPS. After April 15, 2019 the configurations of this product will be at End-of-Sale (EOS) and on May 1, 2019 they will no longer be available for purchase from Vertiv.

All orders for these products should be transitioned to Chloride FP40R, Chloride FP20R or Chloride CP70R depending on the customer requirements.

Vertiv Industrial Systems provides a comprehensive portfolio of industrial chargers, battery power packs and DC UPS tailored to specific application or individual customer requirements. There are multiple technologies and options available in different ranges to meet most needs for DC power back up in industrial or harsh environments.

The DC portfolio of industrial solutions include:

- **Chloride FP20R**, a universal switch-mode technology DC system that can be configured as a rectifier, battery charger or a DC UPS safeguarding critical loads at 12V, 24V, 48V, 110V or 220V of 10 to 4350 W in industrial and infrastructure sectors.
- **Chloride FP40R**, complete range of configurable rectifiers / chargers based on highly reliable thyristor technology. It is designed to operate at 12V, 24V, 48V, 110V or 220V for 2500 to 66000 W in various industrial applications.
- **Chloride CP70R / CP70RC**, continues to be Vertiv's flagship industrial DC UPS system highly customizable to individual customer specifications. The range is available at 24V, 48V, 110-127V, 220-240V and 400V for up to 2500 A in 3-phase configuration.
