

Liebert PowerSure® Surge II

Unequalled Surge Protection For Computers And Other Electronic Equipment

Power surges caused by lightning strikes and other problems on utility lines are capable of permanently damaging or affecting the performance of computers and other sensitive electronic devices. You must take precautions to protect your valuable equipment.

The Liebert PowerSure Surge II is your best line of defense against these problems. This high quality surge suppressor provides maximum protection in a choice of three different models that lets you select additional levels of protection for telephones, modem, fax, answering machine, network, cable modems, audio, video and other communications equipment.

All three models offer unique features and superior performance not always found in other surge protection products:

- Eight surge protected outlets
- Spacing for three transformer blocks without covering other outlets
- Two continuously powered "always on" outlets
- 90° angled input plug mounts flush with wall and offsets cord to prevent covering a second outlet
- Six-foot line cord
- Thermal fuses inhibit destructive surges even if the surge suppressor has failed
- Site wiring fault indicator
- Surge protection available indicator
- On/off switch with circuit breaker
- High Joule rating Indicates a greater ability to absorb high energy surges without damage
- UL 1449 clamping voltage
- EMI/RFI filtration eliminates electrical noise
- Additional DSL and cable modem protection
- Up to \$30,000 connected equipment protection

Professional Protection

The Liebert PowerSure Surge II is designed for professional desktop and network environments. Its transient voltage surge suppression (TVSS) circuitry provides protection from incoming electrical spikes, surges and other power anomalies present on the incoming utility power source.

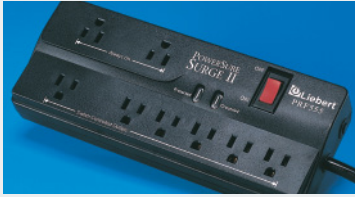

PowerSure® Surge II Specifications

PERFORMANCE	PRF555	NET900T	DSS900T
Joules (bigger is better)	555 J	900 J	900 J
UL 1449 Clamping Voltage (smaller is better)	330 V	330 V	330 V
Peak Surge Current (bigger is better)	48,000 A	72,000 A	72,000 A
IEEE Let-Through Voltage* (smaller is better)	<10 V	<10 V	<10 V
EMI/RFI Filtration (bigger is better)	>50 dB	>50 dB	>40 dB

OTHER FEATURES	PRF555	NET900T	DSS900T
Phone Line Protection	No	Yes	Yes
Cable Protection	No	No	Yes
Number of Receptacles	8	8	8
Number of Always On Receptacles	2	2	2
Thermal Fuses	Yes	Yes	Yes
Reversed Wiring Indicator	Yes	Yes	Yes
Surge Protection Available Indicator	Yes	Yes	Yes
On/Off Switch with Circuit Breaker	Yes	Yes	Yes
Connected Equipment Agreement	\$15,000	\$30,000	\$30,000

Three Models Cover Every Surge Protection Need

The Professional Series **PRF555**

The Best Basic Protection Money Can Buy

Delivers effective, computer-grade power protection for desktop computers, printers, fax machines, point-of-sale systems and other electronic equipment.

The Network Series **NET900T**

Additional Surge Protection For Data And Telephone Lines

Provides data line surge protection for network, telephone, modem, fax, answering machine, DSL and Internet via RJ-45 connection. The NET900T prevents harmful incoming spikes and surges from being passed through to your connected equipment. Accommodates RJ-11, RJ-12 and RJ-45 connectors.

The DSS Series **DSS900T**

Dual Input Coaxial Surge Suppression For DSS Or Cable Modems

Protects cable modems, audio and video equipment connected to the surge protector via two sets of coaxial jacks. The DSS900T also provides data line surge protection for telephone, modem, fax, answering machine, DSL and Internet via RJ-11 connection. Prevents harmful incoming spikes and surges from being passed through to your connected equipment.
