

VERTIV™ BBE SE SERIES

SC Broadband Edge Enclosures

KEY FEATURES

- Rugged metal housing made of mill-galvanized steel for durability and low maintenance costs.
- Our unique multi-stage paint process meets or exceeds EPA standards, and provides a tough corrosion resistant finish for longer life.
- Three convenient sizes allow installation flexibility.
- Double-access hinged doors offer 360° access to all internal conductors and splices.
- Removable lower front panels for easy cable placement and installation.
- Adjustable PVC-coated splice bars permit flexibility in dressing of conductors and splices.
- Overhanging rain guards and close-cell neoprene door gasketing offer weatherproof protection for all internal components.
- Screened louvers protect against insect damage and hazardous environmental conditions.
- Positive action three-point locking mechanism with padlock provisions ensures security from unauthorized entry.

Description

SC6000D, SC8000D, and SC10000D are pad-mounted large pair-count telephone splice enclosures. Included in this series are adjustable PVC-coated splice bars and bonding/grounding brackets.

Application

Vertiv BBE SE Series are used as high pair-count splice enclosures for above-grade installations. The SC6000D has a splicing capacity of 6,000 pair, the SC8000D has a splicing capacity of 8,000, and the SC10000D has a splicing capacity of 10,000 pair.

SC6000D

Dimensions
