

Bulletin: Product Availability

DSR End-of-Life Plan

EOL Effective: March 31, 2011

EOL Overview

As of March 31, 2011, the DSR xx3x appliances will no longer be available. Over the next 6 months, Avocent will begin scaling down inventory of the DSR and increasing inventory of the MergePoint Unity family. The MergePoint Unity family, introduced in April of 2009, is the fourth generation of KVM over IP appliances from Avocent. The Unity products offer more advanced functionality and are better matched to the requirements of today's data center. We understand that making adjustments in IT infrastructure is difficult, so we will still make the DSRs available for the next six months, but at an adjusted price. We have also adjusted a few of the Unity appliance prices to be more in line with the market. The charts below will show:

- Replacement list for EOL DSR products
- DSR xx3x pricing will increase due to decrease in volume (already in effect)
- The Unity 1x16 and 2x16 models have a new reduced price (already in effect)

Product Replacement List

BEFORE DSR XX3X EOL	AFTER DSR XX3X EOL	PRODUCT DESCRIPTION
DSR1024PS2-xxx	DSR1024PS2-xxx	1x1x1 PS/2
