Flat Pack Local Rack Access

VERTIV™

FEATURES

- Integrated LCD display, keyboard, mouse and switch

- 18.5 inch LED energy-saving display

- Scissors feet ultra-thin keyboard

- The machine adapts the towline type protective design and signal cable design to avoid losses caused by repeated pumping

- High quality dedicated slide rail

- Overall 1U height, suitable for standard cabinet installation

- No need for software installation, can be operated directly from the computer

- Built in 90-264V AC power supply; optional -48V telecom stage DC power supply; provides safety protection at the telecommunication level

- Automatic power protection design. When device is not in use automatically enters in protected mode

- Meets DDC/DDC2/DDC2B standards complies with VESA standards

The CFP185KMM is an LCD console tray from Vertiv that integrates the KVM Switch function of multiple ports in 1U. With space-saving and cost-efficient features, the CFP185KMM can manage multiple computers through a single set of console (LCD monitor, keyboard and mouse).

The CFP185KMM is easy to setup. Simply plug in the cables in their appropriate ports. No software required as the CFP185KMM8/16 works on any hardware platform and across all operating systems.

Technical Specifications

Model		CFP185KMM
Display	Resolution	1366 x 768 ; DDC2B
	Display Size	18.5 Inch
	Backlight	LED
	LCD adjustment	4 x Button
	LCD on / off	1 x Button
